

The Corporation of the Town of Marathon
Position Description

Position Title: Solid Waste Utility Worker/Equipment Operator "C"

Reports To: Works & Operations Manager

Position Description: To collect and handle solid waste generated by the residential and business sectors, assist Works & Operations as an equipment operator or airport operator as necessary.

Responsibilities:

1. Performs functions associated with collecting and handling solid waste, including operating the garbage truck and disposing of the solid waste following all environmental guidelines
2. Performs general labour duties including assisting roadway maintenance crew, moving of construction materials, janitorial duties, and washing and cleaning vehicles
3. Operates most of the equipment in the department, including the loaders, 5 ton dump, garbage truck, sander, trackless, asphalt reclaimer and steamer as required
4. Assists with the operation of sewer equipment, water thawing machine and steamer as required
5. Performs minor repairs on heavy-duty equipment including oil and fluid level checks, greasing, checking for loose nozzles and small leaks, assisting to replace cutting edges and washing of equipment
6. Performs airport operator duties as required including: ensuring the airport operation is maintained efficiently and safely following all federal, provincial, and municipal regulations; maintaining airport grounds and buildings for safety and aesthetic reasons; dispensing fuel to aircrafts and maintaining fuel dispensing equipment as required; ensuring fuel, supplies, major servicing and/or repairs are adequate; recording information and preparing reports (fuel sales and invoicing, traffic/passenger activity, weather condition information, grounds and/or building maintenance); and, responding to after-hour call outs to provide fuel and/or airport conditions for flights
7. Works in a safe manner in accordance with the Occupational Health & Safety Act and Regulations
8. Performs other duties as required from time to time

Qualifications:

- Minimum grade 12 education and/or 3 years' experience in a related field
- Minimum 200 operating hours on the loader, 5 ton dump and garbage trucks
- Valid DZ class licence (and ability to operate heavy equipment on occasion)
- Working knowledge of sewer equipment, water thawing machine, trackless asphalt reclaimer and steamer
- Valid "AZ" driver's licence considered an asset or willing to obtain
- Valid standard first aid certificate
- Willing to work in inclement weather and in a team setting
- General knowledge of radio communication systems
- Ability to perform minor maintenance repairs on mobile equipment, runway lights, etc.
- Working knowledge of Federal and Provincial Regulations pertaining to airport operations
- Valid Authorized Approach Unicom Certification or willing to obtain same
- Completed work area protection (traffic protection), chain saw safety and confined space entry courses
- Good organizational and time management skills
- Ability to work with minimal supervision
- Provide a criminal record name check satisfactory to the Employer
